

Active zinc oxide

Aluminum chloride

Aluminum hexahydrate from aluminum scrap.

Aluminum hydroxide (gel) ,from aluminum scrap.

Aluminum hydroxide (crystals- raw material for Al salts) from aluminum scrap.

Aluminum sulfate from aluminum scrap.

Aluminum chloride for water treatment, from kaolins.

Aluminum ammonium sulfate.

Antimony metal powder from Stibnite ore.

Antimony extraction from silver concentrates

Bismuth brown

Bismuth oxychloride

Cadmium oxide -wet method-

Cadmium pigments, type: "Cadmium Pure" y "Cadmionones" :Primrose yellow, yellows deep, oranges and reds.(*)

Cadmium Selenite

Copper and Arsenic recovery from stripping cells' mud

CC Ammoniacal copper citrate.

Copper fluoborate

Copper oxychloride.

Nano-Copper oxychloride.

Copper hydroxide.

Tri-basic copper sulphate .

Copper carbonate.

Copper acetate.

Cuprous oxide, orange.

Cuprous oxide, red.

Cupric oxide.

Copper/calcium sulphate.

5nm.Copper nanoparticles (two methods)

Copper Nitrate (tri-hydrated & hemi-penta-hydrated).

Cotton microfibers.Chemical method

Ferrous sulphate (heptahydrated)

Ferrous fumarate.

Ferrous sulphate (Monohydrated: wet method).

Lead extraction from Lead-Silver residues of zinc refineries.

Lead white (lead sulfate)

Lead Chromate (yellow deep hue)

Lead Chromate (lemon)

Chrome green ("dollar green")-wet method

Iron oxide yellow (ochre)

Mercury and selenium extraction from dust flues. Wet method..

Magnesium sulfate.

Magnesium Chloride Hexahydrate Flakes

Manganese citrate.

Manganese sulphate

Metal Nanoparticles

Nickel nanoparticles.

Protein extraction from Soybean cake.

Red iron oxide

Black iron Oxide (synthetic magnetite)

Iron Blue-ammoniacal prussian blue- (standard)

High hiding strength iron Blue(Milori Blue).

Silver nitrate crystals and sticks, etc.

Silver nanoparticles.

Soybean aminoacid chelates,etc.

Stannous Chloride

Stannous Sulphate

Selenious acid.

Sodium Selenite

Tricalcium phosphate.

Trisodium phosphate.

Zinc Chloride, powder...

Zinc Chromate (lemon)

Zinc Chromate (transparent greenish yellow)

Zinc lithopones..

Zinc Selenite

Zinc Sulfide
